A Keep G; add G′
Scaffold G
Extension G′
R = G ∪ G′
Two bands span this position
B Rearrange CParty; retain candidates
CParty
region
part
part
part
Combine several parts in one step
Smaller steps
region
partial
part
Combine two, then add one
Beam pruning
Higher rank
Right endpoint
Separate MFE search
Own beam candidates
Retain
C Outputs from one retained ensemble
Pair probabilities
Seven context probabilities
