A Keep G; add G′
Scaffold G
Extension G′
R = G ∪ G′
Two band spans overlap here
B Smaller steps; beam pruning
CParty
region
part
part
part
Combine several parts in one step
Smaller steps
region
partial
part
Combine two, then one
Keep top b
Higher rank
Right endpoint
Sum weights → partition function
Minimum energy → MFE
C Outputs: exact example, bpRNA_RFAM_31397 (61 nt)
Pair probabilities
Pair probability: 0.1 0.5 1
